The New Science of Information in Healthcare

How do cells and organs know what to do? What causes them to lose function? How can you assist them to restore proper function so that the body can more easily recover its own self-healing capabilities?

By providing them with corrective information.

NES Health is based on one core principle—that energy and information control biology.

Frontier science is proving that there is a regulating field of energy and information that operates in the physical body at the below-cell level. At **NES Health**, we call this the *human body-field*, and we have been researching its functions and structures for nearly thirty years. We have found that the root causes of physical problems are distortions and blockages in the body-field, which serves as a master control system for all physiological function. The **NES ProVision** along with the **NES Infoceuticals** and **NEStrition** help correct these distortions, so that the body-field and body can more easily—and naturally—return to normal function.

What is **NES Health**?

NES Health is the culmination of 30 years of research into the body-field by Australian Peter Fraser, a former professor of acupuncture and practitioner of traditional Chinese medicine, and British visionary and entrepreneur Harry Massey.

Fraser's groundbreaking theory of the body-field integrates physics, biology, and traditional Chinese medicine. Growing out of that theory is **NES ProVision**—a unique and powerful way to address health concerns.

In his research, Fraser uncovered a system of dynamic, structured energy and information fields that inform the physical body, regulating physiology. This is the human body-field. Fraser has been able to correlate thousands of body-field functions to the physical body, achieving the first true integration of ancient Chinese medicine with modern biology, anatomy and physiology.

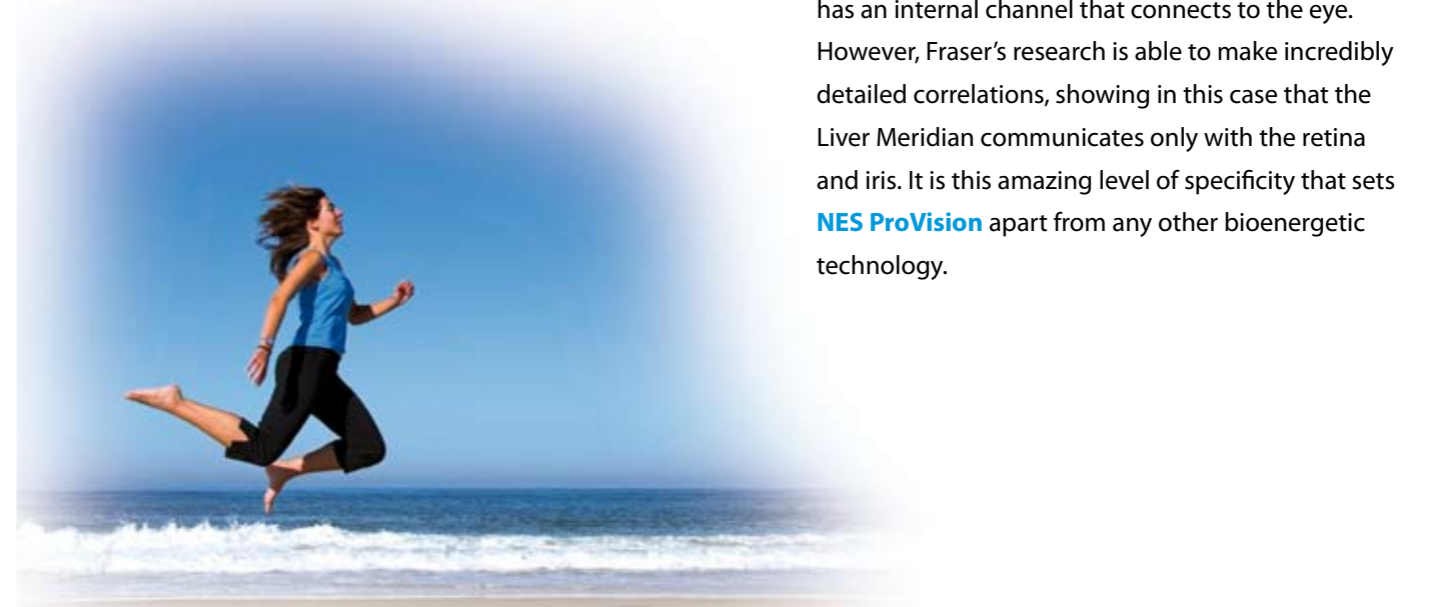

For example, acupuncture and traditional Chinese medicine tell us very generally that the Liver Meridian has an internal channel that connects to the eye. However, Fraser's research is able to make incredibly detailed correlations, showing in this case that the Liver Meridian communicates only with the retina and iris. It is this amazing level of specificity that sets **NES ProVision** apart from any other bioenergetic technology.

NES HEALTH
Conscious well-being
Through Energy & Information

"Ask anybody what the physical world is made of, and you are likely told matter and energy. Yet, if we have learned anything from engineering, biology, and physics, information is just as crucial an ingredient."

Physicist Jacob D. Bekenstein

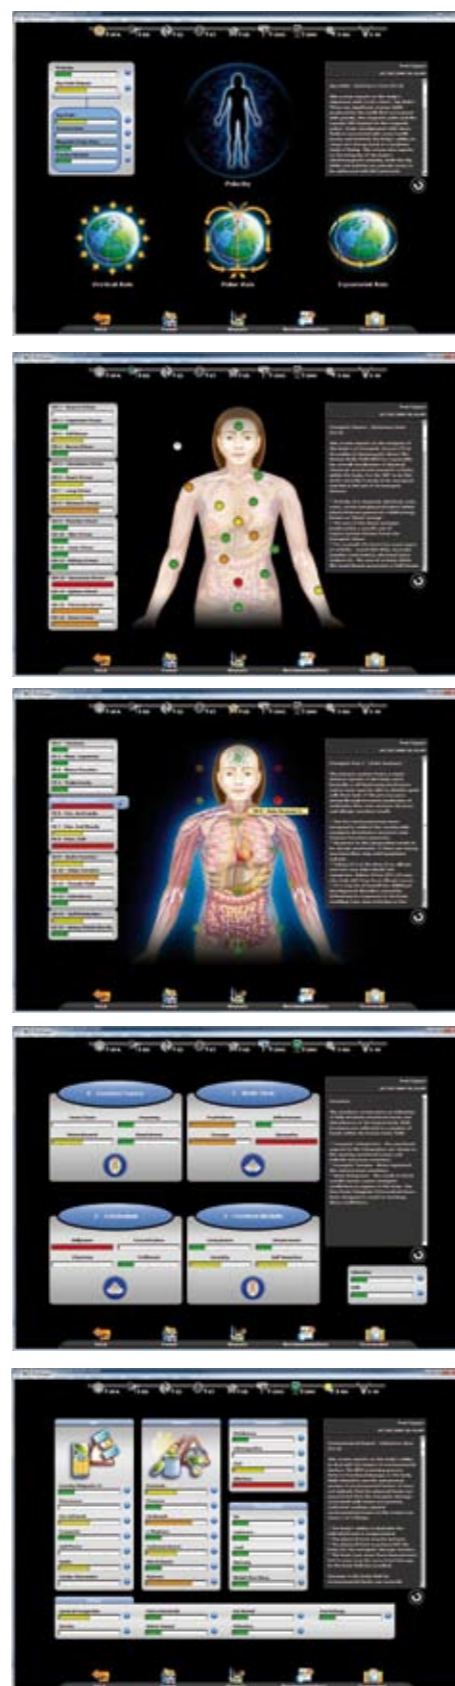

What Is NES ProVision?

NES ProVision is a beautifully designed, incredibly comprehensive health assessment software that probes the human body-field to identify the bioenergetic and bio-informational distortions that may underlie physical and emotional concerns. Your client simply places his or her hand on an input device that is similar to a computer mouse and in minutes the software returns more than 150 results about the body-field and body in anatomically correct and extremely detailed graphical representations that include:

- Major organs and organ systems
- Environmental influences, such as toxins, EMF fields, and more
- Nutritional influences
- Musculoskeletal system
- Emotions, including trauma and shock
- Body-field structures, including:
 - **Energetic Drivers**—the fields that power the organs and organ systems
 - **Energetic Integrators**—the channels that regulate information transfer within the body-field and to the body
 - **Energetic Terrains**—the energetic environments that correlate to emotions and encode healing messages for the body-field and body
 - **Energetic Stars**—the multifaceted energetic pathways correlated to metabolism and the “survival” instinct of the body

The software also identifies the **NES Infoceuticals** and the **NEStrition** imprinted food supplements that can best correct body-field distortions and help restore the body’s own self-healing capacities.

What are the NES Infoceuticals?

The **NES Infoceuticals** are liquid remedies that restore integrity to the human body-field. They are purified water that contain a minute quantity of plant-derived micro-minerals that are encoded with information to help return specific aspects of the body-field to proper functioning. Your client takes the **NES Infoceuticals** as drops in a glass of water, according to specific protocols you will learn in **NES ProVision** Training.

The **NES Infoceuticals** are pure information. Each one directly corrects specific information structures and

energy patterns in the body-field. They can be used while your client is taking any other type of remedy, including homeopathics, pharmaceuticals, herbs and supplements.

What Is NEStrition?

NEStrition is a line of supplements that are unlike any other supplements on the market today. Not only are they made from a synergistic blend of the highest quality ingredients, but they also are specially imprinted with information based on **NES Health’s** research into the human body-field.

If your body-field and body are not working properly at the level of energy and information, then any dietary supplements you take— including vitamins and herbs—may not be absorbed properly, and so you won’t benefit from them. The **NEStrition** supplements

are imprinted with the bio-information to help correct energy and information distortions at the level of the body-field, allowing your body to metabolize the nutrients properly and helping to increase your sense of well-being and vitality.

How can NES ProVision help your clients?

The **NES Health** approach to healthcare provides a natural, holistic, non-invasive way to maintain the body's proper bioenergetic state and to enhance self-healing capabilities if there are problems.

NES ProVision is different from any other system because the theory that supports our approach is the only one that:

- Has uncovered the actual structure of the human body-field
- Understands the dynamics of the energy and information flow from the body-field to the body
- Has determined that the body-field must be analysed in a specific order and corrected in a specific sequence. Following this sequence can dramatically improve results, helping your client return to greater well-being more quickly
- Delves deeper into the body-field than any other system, directly affecting the quantum aspects of the body and body-field.
- Functions on a macro level, restores integrity and reactivates the body's self-healing capabilities.

Who can use NES ProVision?

Any qualified healthcare practitioner can use **NES ProVision** and is eligible to become a Certified NES Practitioner. Medical doctors, chiropractors, naturopaths, nurses, nutritionists, certified massage therapists, acupuncturists and other types of healthcare providers are currently using **NES ProVision** either as a standalone system or to complement their existing practice.

NES practitioners are the visionaries of healthcare. They like to stay on the cutting-edge of science, and they are enthusiastic about bringing their clients the latest advances to achieve optimal well-being. If this describes you, then you owe it to yourself and your clients to include the **NES ProVision** in your practice.

Coming soon.... The Revolutionary NES iHealth

NES Health brings the power of healing to everyone with the revolutionary **NES iHealth** – 'the healer in your pocket'.

The NES iHealth can both read and change the energy and information of the body. We have combined 8 cutting-edge technologies for Treatment and Scanning including

Scanning Technologies

NES ProVision Information Matching
Body Energy Detector

Treatment Technologies

Informational Electro Imprinting
Bio Electro Stimulation Therapy
Treatment Reaction Monitoring

Informational Dispenser
Global Scaling
Laser Acupuncture

Want to find out more about this amazingly powerful new tool, subscribe to our **NES iHealth** newsletter by emailing ihealth@neshealth.com
